

Why Customers Choose PROTOS

We're an IT company from Ukraine which develops high-level IT solutions for customers around the world. We provide our expertise in Web and Mobile Development, Business Analysis, UI/UX design, Project Management and Quality Assurance.

Our Technology Stack

FRONT-END DEVELOPMENT:

- AngularJS;
- Angular 2+;
- React;
- Meteor;
- Hybrid Mobile Apps (React Native, Native Script, IONIC);

BACK-END DEVELOPMENT:

- Serverless: AWS, Firebase;
- JAVA;
- Golang;
- Python;
- Node.js;

Our Advantages

Progressive stack

We create progressive and scalable projects using modern technologies that will be relevant for coming years.

Unique architectural solutions

An extensive experience in the development field allows to create unique solutions for every business.

Zero bureaucracy

We don't spend valuable time on paperwork trying to run the project as soon as possible.

Quick onboarding

We find right people for your project in a short period of time, which allows you to avoid long waiting before the launch.

Flexibility

We adapt to demands of the business and the market, so we can determine the best format of cooperation for both sides.
